BARDONA NURSERIES

BAKERSTOWN. PA.

P. O. Box 24

Nurseries Located on Sandy Hill Road

Evergreen Trees

Can be dug with original earth ball or root system carefully dug and wrapped in Humus or peat moss with burlap. Either method of transplanting has proven satisfactory, providing trees are thoroughly watered at least once each week until the trees become firmly established.

Flowering Trees

Dogwood, Fl. Peach, Cherry, Magnolias, Jap. Red Maples, Copper Beech, and others at special prices, according to size.

Planting service for any size tree as some of the more difficult require an earth ball in transplanting and we stock a good range of different sizes at fair prices. Ask for quotations.

Hedge Plants

Today you can use so many different types of plant material for this purpose but the most commonly used are:

JAP. BARBERRY

PRIVET—CALIFORNIA—IBOTA—REGALS

Our prices range according to size of plants and a nice hedge can be had at a real price.

Flower Garden and Border

As it is impossible to keep a succession of bloom in a hardy border or garden we suggest that you allow space for annuals to fill in after the perennials finish blooming.

For the past ten years we have grown a good selection of both the Perennial and Annual Flowers ready for the Garden about May first.

Annuals

Consist of the standard petunias, snaps, calendulas, and as ever we will have a good number of the new flowers; also the novelties of the season. We will have about 60 varieties to choose for color and types. Ordinary varieties out of pots, 50c per dozen. 4 dozen Flats, including flat, \$1.25 per flat. Rare varieties and novelties slightly higher.

Perennials

Are the hardy or repeating each year flowers and as other seasons we will have over sixty varieties sure to bloom plants out of greenhouse ready for your garden May 1st.

The ordinary varieties out of pots, \$1 per doz. In ready-to-plant paper pots for \$1.50 per doz. Also have a good assortment of field grown plants at 15c and up.

You can have a successful garden at a slight cost by using our Annuals and Perennials. We will reserve any number you may need. Order early for a good assortment.

Be sure your soil is proper and well fertilized. Also be careful of location and exposure.

Fruit Trees

APPLES—Popular sizes.

11-16—5 to 7 ft. size.....35c each

We carry about 20 different varieties of Apple trees at all times.

PLUM TREES.

CHERRY TREES—Sweet and sour varieties.

11-16 size75c each

Good assortment in this size at all times.

PEACH TREES—Early—Late varieties.

11-16 size35c each

We carry at least ten varieties of peaches.

Larger or bearing size trees at special prices.

Roses

More cut flowers than any other type of plant, we guarantee our roses to grow.

2-year No. 1 plants, bare root.....\$2.50 per doz.

2-year No. 1 plants, potted.....\$5 per doz.

We carry a good assortment and named varieties of colors at all times.

Climbing Roses

Everblooming and Standard varieties, 25c each. An ideal plant for the slope or terrace.

Our Landscape Construction Department will plant a tree, build a pool, wall, or walk. Also our Association connection enables us to give expert horticultural information or prepare your Landscape Plans.

If you are not sure what or when to plant we are ready to advise you correctly.

Our better Nursery Stock is grown for your pleasure and to avoid disappointments.
